

DREAM 2

This is a program that promotes the educational development in rural schools through projects of conservation and protection of nature it also boosts the participation of several educational actors (teachers and parents) in the planning, execution and evaluation of enterprises through the sustainable use of renewable resources. This program was designed to motivate and develop the talents of students through scholarships and semi-scholarships, enabling the most prominent but economically disadvantaged students to continue their higher education successfully.

THE SCHOOLS

● Tamarindo 086 Elementary Educational Institution - Tumbes

It was a unitary school, it means with only one teacher, who taught the 6 Primary grades . 11 students, distributed through all the different levels, attended the school. The teacher was at the same time, the principal of the campus. With the financial support from Dream 2, some key activities were developed with unexpected successfully results in a short time.

- **12085 Fernandez High Educational Institution -Tumbes**

It was a unitary school, it means with only one teacher, who taught the 6 Primary grades . 18 students, divided in the different grades, attended the school. The teacher was at the same time, the principal of the campus. The place was small, it was located in the village, with a poor equipment, it did not have an updated library.

This situation changed very quickly with the help of Dream 2 through the development of the activities and achievements detailed below.

- **86970 Humacchuco Educational Institution - Ancash**

It was a unitary school with approximately 20 students in the heights of Huascarán National Park. Its infrastructure was limited; its furniture was very used, it did not have the basic services of a good library. But the teacher and the principal worked with enthusiasm and commitment. The children were Quechua speakers with a little command of Spanish. But the teacher was bilingual: speaking in Quechua and Spanish quite naturally.

- **34253 Monte Carlo Educational Institution - Pasco**

It is a primary school located in Huancabamba district, in the province of Oxapampa, Pasco region, in the village of Montecarlo, near Yanachaga-Chemillén National Park.

It had three teachers and more over thirty students. The classrooms lacked the necessary equipment and training materials. With the financial support from Dream 2 this situation began to change a lot, and now it is a school model to follow in the zone.

OUR CONTRIBUTION

- Very important academic students' improvement from Dream 2 thanks to the projects handled with their teachers in each model Educational Institution.
- Each year more than 15 students graduated from primary level, which are participants from Ecology, Production and Education programs - Dream 2 in Tumbes, Ancash and Oxapampa, were given supported through the Scholarship Program to continue their higher studies.
- 16 students graduated from primary schools "Nature Lovers" from Tamarindo, Tumbes, and 14 from "Norman Simmons" Fernandez Alto, Tumbes, were given scholarships to continue their high school, and later to study in upper institutions and universities in Tumbes and Piura. Several of them are now professionals in the field of tourism, health, agriculture and environmental conservation.
- 5 students graduated from the Educational Institution "Hilah Simmons" Monte Carlo Oxapampa were given scholarships to continue their university studies.
- 3,500 students have been trained in reforestation work nearby the hillsides towards their schools, and in the implementation of greenhouses and orchards for their own use.
- About 60 teachers have been trained in issues related to environmental conservation and the best strategies to work with students in primary and secondary level in Tumbes, Ancash and Oxapampa.
